Risk Disclosure

CLERIX *Documents*

This Risk Disclosure is intended to inform **User** about general risks associated with access to and use of Platform, including technical, operational, external, and user-dependent risks. Platform provides software-based functionality and technical tools only and does not ensure or warrant any specific outcome or result.

User acknowledges that use of Platform involves independent decision-making, configuration, and interaction with external systems and environments that may be outside Company control. Results, performance, and consequences of Platform use may vary significantly depending on multiple factors, including User actions and third-party dependencies.

This Risk Disclosure forms an integral part of contractual framework governing use of Platform and shall be read together with Terms of Use and Privacy Policy. **By accessing or using Platform, User confirms understanding and acceptance of risks described herein and agrees to assume full responsibility for consequences arising from use of Platform.**

I. General Risk Acknowledgement

1. User acknowledges and agrees that use of Platform **involves inherent technical, operational, and market-related risks which may result in partial or total loss of value, functionality, data, or access**.
2. **Platform provides software tools and technical functionality only.** Company does not guarantee any specific outcome, performance, efficiency, reliability, or result arising from use of Platform.
3. **User uses Platform solely at own discretion and responsibility** and confirms understanding that outcomes depend on multiple external and internal factors beyond Company control.

II. No Advice and No Fiduciary Relationship

1. Platform **does not provide financial, investment, trading, tax, legal, or other professional advice**.
2. Any information, metrics, indicators, configurations, or outputs generated by Platform **are provided for technical and informational purposes only** and shall not be interpreted as recommendations, signals, or guidance.
3. **No fiduciary, advisory, agency, or trust relationship** is created between User and Company by use of Platform.

III. User Configuration and Decision-Making Risk

© 2026 Clerix (18+). All Rights Reserved

1. **User independently configures, activates, modifies, and terminates** use of automated tools, parameters, and integrations available on Platform.
2. **All decisions** related to configuration, activation, suspension, or adjustment of automated functionality **are made exclusively by User**.
3. **Company bears no responsibility for losses, inefficiencies, or undesired outcomes** resulting from User-selected parameters, configurations, or usage patterns.

IV. Third-Party and External System Risks

1. Platform may rely on, interact with, or integrate technical interfaces, APIs, software, or **infrastructure operated by Third Parties**.
2. Company does not control, operate, or guarantee availability, accuracy, stability, or security of Third-Party systems.
3. **User acknowledges risk of failures, delays, interruptions, incorrect data transmission, access restrictions, or termination caused by Third Parties**.
4. Company shall not be liable for consequences arising from malfunction, suspension, restriction, insolvency, or termination of Third-Party services.

V. Technical and Operational Risks

1. Platform is provided on an "**as is**" and "**as available**" basis.
2. Use of Platform may be affected by:
   - **(a)** software bugs, errors, or vulnerabilities;
   - **(b)** system overloads, maintenance, or outages;
   - **(c)** network failures or latency;
   - **(d)** data corruption or synchronization issues;
   - **(e)** unauthorized access attempts.
3. **Company does not warrant uninterrupted, error-free, or secure operation of Platform at all times**.

VI. Market and Environment Risks

1. **User acknowledges that outcomes associated with Platform use may be influenced by rapidly changing external conditions**, including volatility, liquidity constraints, system congestion, or force majeure events.
2. **Company does not control external environments in which Platform tools** may be applied and does not assume responsibility for consequences arising from such environments.

VII. Limitation of Responsibility

1. Company shall not be responsible for:
   - **(a)** losses arising from User decisions or actions;
   - **(b)** indirect, incidental, consequential, or speculative losses;
   - **(c)** loss of opportunity, expected benefit, or anticipated performance;
   - **(d)** actions or omissions of Third Parties;
   - **(e)** User failure to understand or manage risks.
2. **User assumes full responsibility for evaluating suitability of Platform for own purposes and risk tolerance.**

VIII. User Confirmation

1. **By accessing or using Platform, User confirms having read, understood, and accepted this Risk Disclosure.**
2. User acknowledges that this Risk Disclosure forms an integral part of contractual framework governing use of Platform.
